A case of primary syphilis is reported in a patient presenting with a simultaneous symmetrical palsy of the face and an upper limb. Synchronous fascio-cutaneous facial nerve palsy is rare. Syphilis is now curable, and the possibility of facial palsy should always be considered in any patient presenting with such symptoms. Diagnosis is often difficult because of the confusing nature of the disorder and its atypical presentation. Q: Android: start a new intent on click on button I am trying to make an app that starts a new intent. Here's the code of my button: Here's my main code: `Button btnSave = (Button) findViewById(R.id.save_button); btnSave.setOnClickListener(new View.OnClickListener() { @Override public void onClick(View view) { Intent intent = new Intent(MainActivity.this, Poster.class); startActivity(intent); } });` I have no idea what is wrong. The problem
