Commandos 3: Destination Berlin is the most recent edition of the Commandos series, the third one was made and released by Pyro Studios. The game was released in 2003. Although Commandos 3: Destination Berlin is in fact a re-release, a number of improvements were made to the game, such as new, modernized 3D graphics and a new level design. The game also contains a multi-player mode. Commandos 3: Destination Berlin was developed on the SCOOP platform for PC and SCOOP console. The game was released for the Game Boy Color and was eventually ported to the Game Boy Advance. Plot A team of British commandos are sent behind enemy lines to overthrow a top German general in Berlin, where they are to storm a target known only as "Destination Berlin" and the player's task is to eliminate the general and prevent the German's plans from being completed. The game's goal is to gain as much money as possible through the missions given to the

player, which they must complete in order to be awarded with money, unlike the previous versions, which did not have goals, as their missions were decided before the player started the game. There are also several currencies the player can spend during their missions, such as money, weapons, supplies, etc. Gameplay Commandos 3: Destination Berlin is a real-time strategy (RTS) game, in which the player must complete missions of different types (expeditions, raids, etc.) while trying to amass as much money as possible. Commandos 3: Destination Berlin has multiple features in comparison to its predecessors. Most noticeable is the addition of several features, such as the multi-player mode and several improvements in the game engine. Multi-player Multi-player has been added to Commandos 3: Destination Berlin, but only in the game's remake version, Commandos 3: Berlin Edition. The multi-player mode allows players to play with up to four other people via the internet or wireless network. The multi-player mode, like the single-player mode, is completely different from the previous Commandos games. The game takes place in a top-down perspective. The game automatically sets the number of players to the number of players currently online. The players must work together in order to reach the end of the game. If any player dies, the team will be eliminated, and the team must start a new game 2d92ce491b
