The depot and surrounding site are being prepared for future growth.Excerpt: "The Apple Watch is about to get a lot more useful, as a lawsuit in California makes clear that Apple has agreed to put features directly into the watch itself, rather than having a peripheral maker's software and hardware layer on top. There's not much information out there about what those new features might be, but we have a good idea — more so than with any other new wearable. It's not going to be a phone, and it's not going to be a Fitbit."The prevalence and outcome of contralateral cochlear implantation. To review the prevalence and outcome of ipsilateral and contralateral cochlear implantation (CI) and to provide guidelines for the device for patients with bilateral congenital or acquired severe-to-profound deafness. An electronic search of the Cochrane Ear, Nose, and Throat Disorders Group Trials Register, the Cochrane Central Register of Controlled Trials, MEDLINE, EMBASE, and additional sources were undertaken (last search December 2012). The reference lists of the identified studies and review articles were also checked.
