System Requirements:

Changes: New Features: New unit crossing modifier, the “XMod” modifier. These cause the enemy unit to stop moving when it has to cross the lane but if it has to be dismounted and mounted again, this modifier will cause the “crossing modifier” to be applied again. New unit movement modifier, “Pathfinder Modifier”. This allows units to move through other friendly units, it is more of an anti-air system. New player marker system, this lets you see which player
